

## How do I look after my Titan Building?

To make your building last longer and get more years for your money we recommend a primary, secondary and possibly final coat applications. You have purchased a quality product so it is sensible to offer quality treatments. Water & damp are the main enemy of timber buildings. We hope the information in this leaflet will help you combat these.

### Primary Undercoat FOC

Your Titan building sides & floors come ready treated FREE with an algicide & fungicide treatment. This is a matt undercoat light pine colour. The coating has wax properties to make it water repellent. This will last for 7-12 months as a weathershield. After the installation the timbers will settle and dry over 1-2 months.

### Secondary Coat

We then recommend painting a secondary coat of Titan Wood protector. This will nourish and protect external timber. It is the best on the market with 95% acrylic mixture with a high wax content. It is best to treat every 5 years. It can be applied to any exterior wooden structures.

Spruce

Teak

Titan Pine

Chestnut

Dark Oak

Ebony

Available in stock in 6 colours.

2.5 litres @ £35.00, 5.00 litres @ £48.00, 25 litres @ £189.00. A further 16 colours are available. Prices as above + postal charge.

This can be applied at the factory. Recommended in situations where shed sides are hard up against a wall after installation. Cost = price + installation.

*Can be applied by brush, spray or roller.*

### Final Coat Clear Tough

Possibly needed in the situations excessive wear and tear i.e. coastal or exposed weather conditions. Or where you want to be sure of protecting your buildings for longer life.

A clear tough coat designed to go over the top of Titan Wood Protector. It has high levels of acrylic copolymer that increase water proofing properties & allow the timber to breath. It is a clear solution. The hard layer acts as a shield to the colour underneath. It can be used as a top coat on garden furniture or decking. You cannot paint anything on top of this coat.

Available only in 1 & 5 litres. Price POA.

- WATER REPELLENT PROTECTIVE COATING
- FIVE YEAR LASTING COVER
- LOW ODOUR
- PET AND PLANT FRIENDLY

### The Environment

All products are environmentally friendly and comply with Health and Safety Regulations. Our products harmless to plants and animals. Prolonging the life of your timber reduces unnecessary deforestation.
